DRIVE THE LEGEND

Nothing else offers the unique combination of classic style and exhilarating performance quite like the Ford Mustang. Whether it's the Fastback or Convertible, 5.0L V8 or High Performance 2.3L, the Mustang has a heritage few other cars can match.

5.0L V8 Engine

Expertly engineered to help maximise power from every compression, the Mustang GT's 5.0L V8 engine utilises a dual-fuel, high-pressure direct injection and low-pressure port injection system. Boasting 339kW[2] of power and 556Nm[2] of torque, this is the stuff of legends.

Mustang High Performance 2.3L

With an upgraded 236kW[2] turbocharged engine, the 2020 Mustang High Performance 2.3L features Ford's EcoBoost powertrain, giving you more thrust when you need it.

Pre-Collision Assist with Pedestrian Detection[3]

Autonomous Emergency Braking is designed to help you detect if the car in front has unexpectedly stopped or a pedestrian steps out onto the road and can automatically apply the brakes if you don't.
